Cattle Producers,

This year Bloomfield Livestock Market is going to hold 2 IMBIO (co-mingle) pre-condition special feeder cattle sales. Our goal here at BLM is to keep you aware of what buyers are looking for, to help meet up with the consumer demands. Our buyers have requested that the calves need to be weaned 60 days to help with the transition to their new location for a healthier calf. We also request that the cattle be in the right condition, clean in appearance, so that the most particular buyers will bid on them. It is a huge benefit to the seller!

We will be working with Mike England, the Zoetis senior territory business manager. We feel the Zoetis pre-weaning protocol will ensure healthier calves for you and the buyers. More than 85% of feedlot and background operators believe that pre-arrival processing reduces sickness, stress, and death loss in their lots. Zoetis is very flexible in the options that are available; whether you begin vaccination at pre-weaning or weaning to meet the requirements. We recommend that you talk to a veterinarian (range ready vet list provided) to see what protocol fits your needs for your best results.

What is IMBIO, you may ask? IMBIO Stands for Iowa Missouri Beef Improvement Organization. It is our co-mingle grade sale. All cattle participating in the sale will have to meet the requirements listed below. Once all your cattle have been unloaded at BLM on sale day we sort the cattle in their appropriate groups, weigh the cattle, yard them out with other cattle that they fit, sell the cattle in the evening on the weights from when they were sorted. The cattle get put in bigger groups up to semi load lots that are more attractive to buyers. We have been doing this since the early 1990s and is a proven program. There are many advantages to this program for the producers and buyers. Feel free to contact us with any questions, concerns, or for a farm visit to look at your cattle!

Requirements for IMBIO market ready sales

*Home Raised Cattle *Wean 60 days prior to sale *2 complete rounds of Zoetis brand range ready vaccines (at least 1 round administered by a veterinarian... Preferably both) *Castrated *Dehorned
*IMBIO ear tag (issued by your vet)(put the ear tag in at 2nd round of shots helps ear tags stay in longer)
*Treated for Internal and External parasites *Wormed *Veterinarian certified health paperwork*

Weaning deadline to meet 60-day requirement

Sale Date

September 8, 2023

Monday-November 6, 2023 @ 7:00pm

October 30, 2023

Thursday-December 28, 2023 @ 7:00pm

Producers that plan to participate in the IMBIO please call in to BLM with your head counts 2 weeks prior to the sale, so we can take full advantage of advertising, your cattle to all the buyers!

Thank you all!
